STEINBACH GOLF

STEINBACH GOLF

7 actions in just one process

STEINBACH GOLF

Optimal aeration of the green

-  **Aerate the grass**
-  **Loosen the soil**
-  **Accelerate grass growth**

STEINBACH GOLF

The advantages of Steinbach Injection

- 1 7 processes with just one machine
- 2 Aeration, scarification, fertiliser, irrigation, washing in of sand, brushing and pressing
- 3 18 greens in one day
- 4 Immediate play possible without any loss of quality
- 5 Work made noticeably easier for the greenkeeper
- 6 Significant extension of roots, more stable turf
- 7 Fertiliser, microorganisms, algae etc. can be injected directly into the roots in liquid form

STEINBACH GOLF

Fertiliser

Previously: leaf fertiliser

with Steinbach Golf

New: root fertiliser

STEINBACH GOLF

Longer roots and visible results after just 5 days

STEINBACH GOLF

Washing in the sand

During the aeration process, the core is removed – removal of approx. 400 - 800 kg of material per green

Sand is then mixed in – min. 1 tonne of sand per green

New:

The existing sand is forced upwards, washed and brushed back in again

Only top dressing required

Considerable saving of sand

STEINBACH GOLF

Irrigation

Losing lots of water...

... or direct to the roots

STEINBACH GOLF

Fertilisation

-  Based on fertilisation plan
-  Greenkeeping expertise
-  Steinbach recommendation
-  Based on soil analysis
-  Or DNA analysis

High quality organic fertilizers available for different requirements

STEINBACH GOLF

Significantly longer roots through injection

Root growth

STEINBACH GOLF

Success of Steinbach injection

STEINBACH GOLF

One golf course - 3 different perspectives

Golfer:

Wants to enjoy the game, have a perfect green and not notice any of the maintenance measures involved.

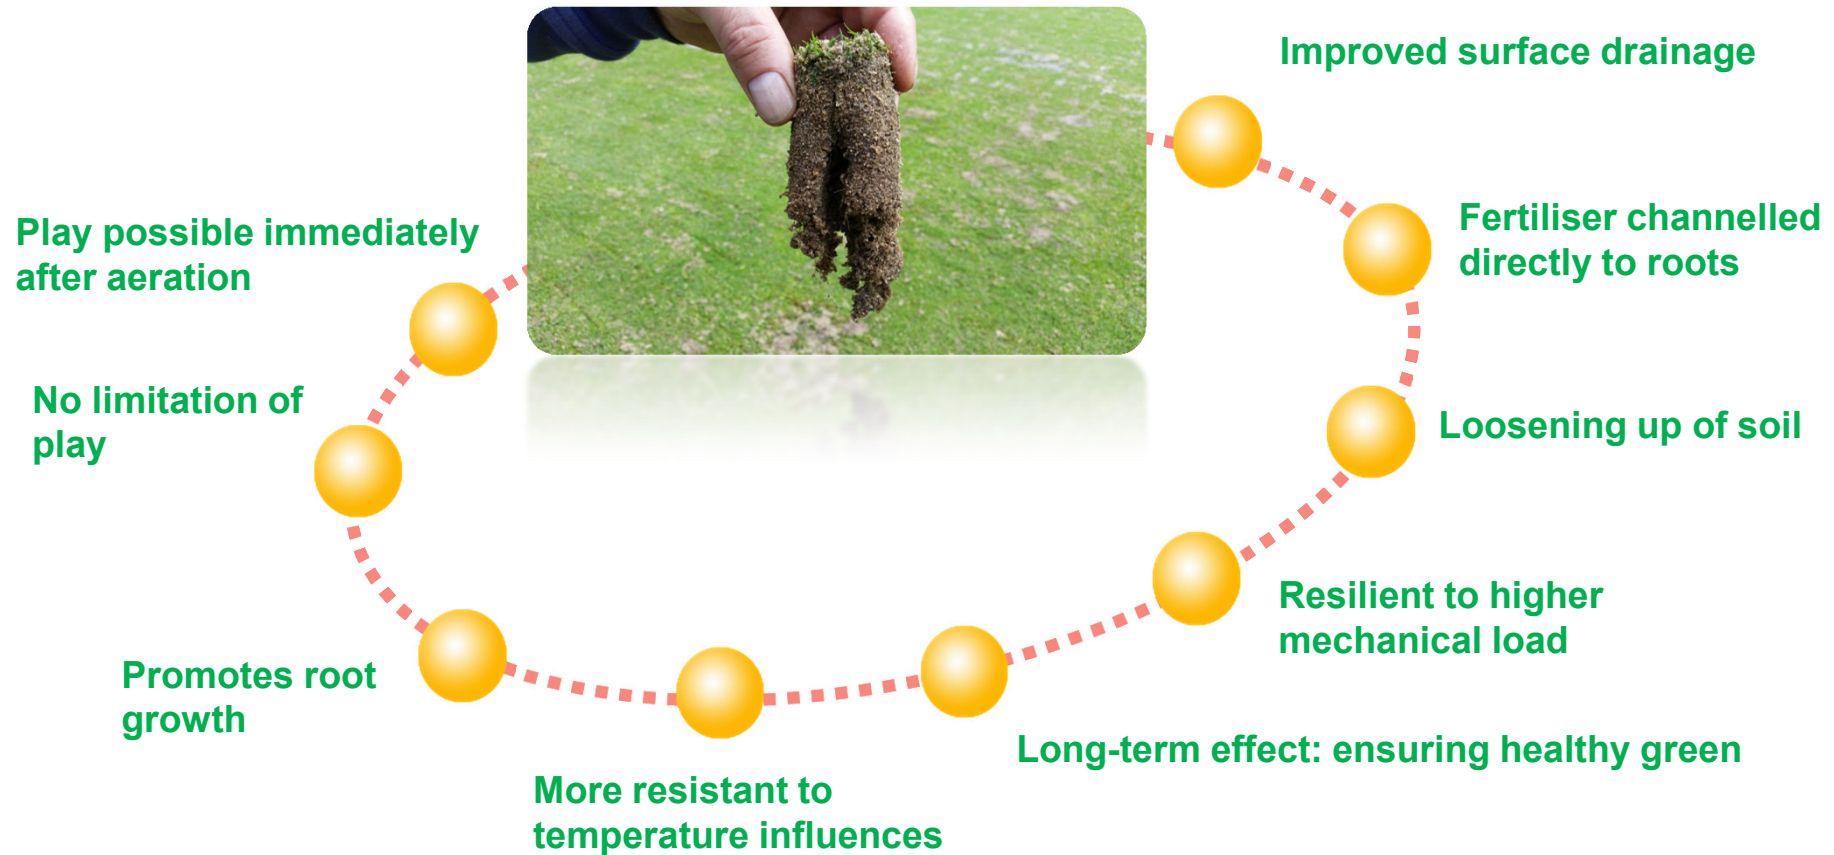

Operator:

Wants to present a good golf course in the most cost-effective way possible so as to guarantee high revenue from the numerous green fee players.

Greenkeeper:

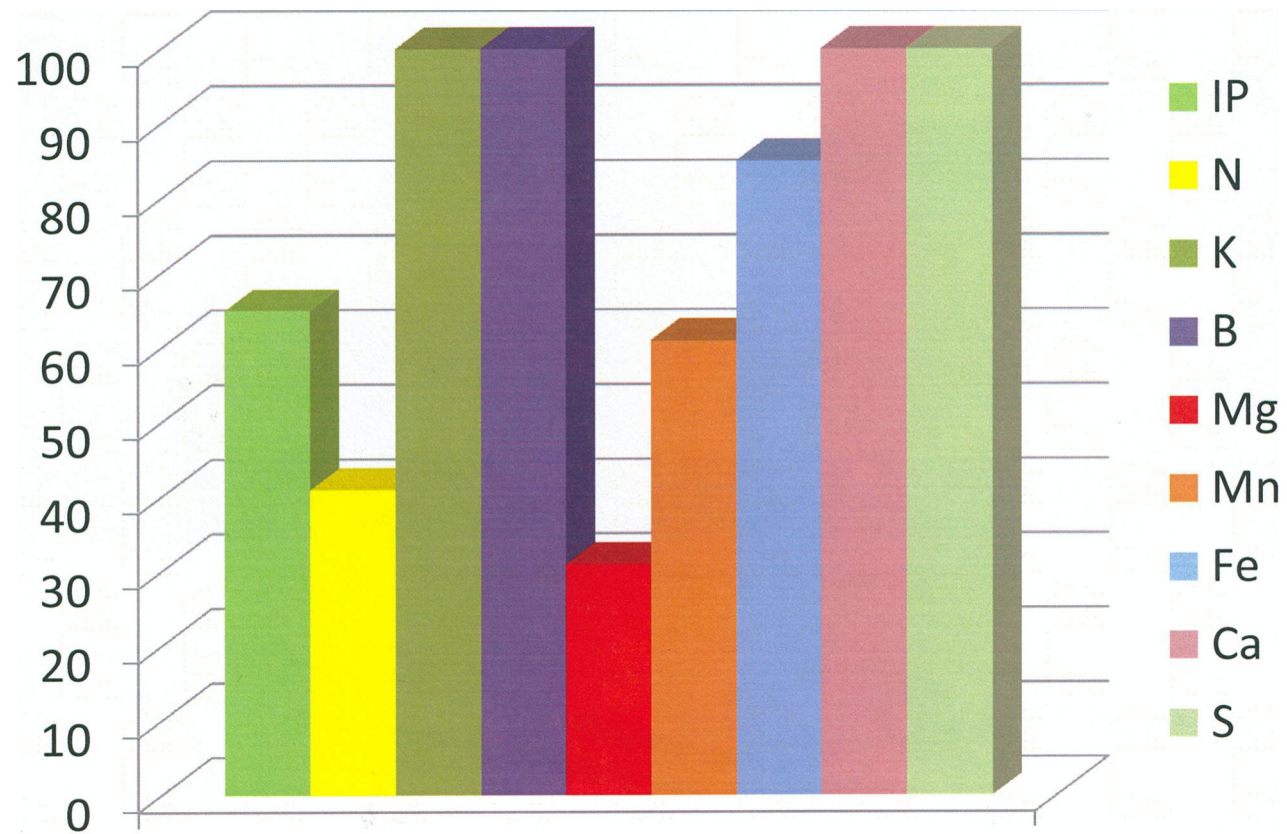

Aims to implement efficient processes. Wants to achieve optimal results through targeted efforts.

STEINBACH GOLF

STEINBACH GOLF

Measurement of concentrated fertiliser using fluorimetry

STEINBACH GOLF

Measuring equipment

-  Temperature
-  Soil moisture
-  Mineral content
-  Electrical conductivity
-  pH - value
